

Basel Sustainability Forum: Food

Wednesdays, 12.15-14.00

Venue: Vesalianum Seiteneingang, Grosser Hörsaal (EO.16)

BSF 2026

This lecture series brings together researchers and practitioners working at the intersection of food systems, sustainability science, and societal change to explore how research can go beyond describing problems and deficiencies by contributing to just, resilient, and sustainable food futures.

The 2026 Basel Sustainability Forum is open to anyone with an interest in sustainability and provides a space for engagement with research and real-world challenges of feeding a growing global population.

Join us on11 November 2026 for two lectures on:

Historical Foodways and Sustainable Futures: Christian Farming Initiatives in the Rural United States

By Julius Malin, Researcher, Social Transitions Research Group, University of Basel

Family Farmers and Climate Action: Stories, Challenges and Opportunities

By Cheryl Sullivan, Food and Agriculture Organization

University of Basel
